Math is a set of interrelated concepts  
Like building blocks, one concept  
serves as the prerequisite  
for many others.

Students don't often struggle  
with the new concepts  
but rather with those they have  
not fully acquired previously.

Initial Interview  
& Assessment Required

"Vincent is a conscientious and patient teacher with many years of experience. He genuinely cares for his students and knows how to motivate them to reach their potential. My daughters have respected and loved him as their teacher. I recommend him highly."

~Hanno Berg -Owner of Homeschool Hangout Bookstores
